SOLAR PANEL	TATA, ADANI, WAREE, SATVIK
INVERTER	FESTON, GROWATT,
STRUCTURE	GALVANIZED IRON
WIRE	POLYCAB, HAVELLS
ACDB, DCDB	HAVELLS, SCHNEIDER

1kW Solar System

Under the **PM Surya Ghar: Muft Bijli Yojana**, a 1 kW solar system is highly incentivized to help small households achieve energy independence and reduce monthly bills. As of 2026, the Central Government provides a fixed subsidy (Central Financial Assistance) of ₹30,000 for a 1 kW system and Uttar Pradesh government (via UPNEDA) provides a state-level subsidy of ₹15,000 which is directly credited to the consumer's bank account after successful installation and net-metering.

3kW Solar System

Under the **PM Surya Ghar: Muft Bijli Yojana**, a 1 kW solar system is highly incentivized to help small households achieve energy independence and reduce monthly bills. As of 2026, the Central Government provides a fixed subsidy (Central Financial Assistance) of ₹78,000 for a 3 kW system and Uttar Pradesh government (via UPNEDA) provides a state-level subsidy of ₹30,000 for a 3 kW system which is directly credited to the consumer's bank account after successful installation and net-metering.

WHY CHOOSE PRAVAN GROUP

PRAVAN GROUP focuses on delivering reliable engineering solutions with professionalism and technical expertise. Our approach is based on quality workmanship, safety standards, and long-term client satisfaction.

Our Strengths

- Experienced Technical Team
- Expertise in Solar & Electrical Projects
- Reliable Project Execution
- Compliance with Safety Standards
- Transparent and Professional Work Culture
- Timely Project Completion
- Dedicated Customer Support

We believe in building long-term relationships by delivering dependable services and maintaining high standards of engineering quality.

WHO WE ARE

PRAVAN GROUP is an electrical installation and technical consultancy firm committed to delivering reliable and efficient engineering solutions. The company specializes in solar power systems installation, LT/HT electrical works, project supervision, maintenance services, and technical consultancy for government and private sector projects. With experienced professionals and a focus on quality, safety, and timely execution, PRAVAN GROUP aims to provide cost-effective and sustainable electrical infrastructure solutions while maintaining the highest standards of professionalism and customer satisfaction.

PRAVAN GROUP

AN ELECTRICAL INSTALLATION AND CONSULTANCY SERVICE PROVIDER

OUR SERVICES

PRAVAN GROUP provides comprehensive electrical and renewable energy solutions for residential, commercial, industrial, and government sectors. Our services focus on quality engineering, efficient execution, and reliable technical support.

Key Services Include:

- Solar Rooftop System Installation
- Ground Mounted Solar Power Projects
- LT / HT Electrical Installation Works
- Electrical Panel Installation and Maintenance
- Electrical Safety Inspection and Testing
- Project Consultancy and Technical Support
- Operation & Maintenance of Electrical Systems
- Electrical Infrastructure for Government Project

Our team ensures that every project is executed with proper planning, safety compliance, and adherence to industry standards.
